## Admin

### 1. Requests Menu Sub-Menus:

- ☐ Under the "Requests" menu, create sub-menus as follows: [To Buy, To Rent, To Sell, To Manage].
- ☐ Define each sub-menu:
  - ☐ To Buy: Represents a request to purchase a resale unit.
  - ☐ To Rent: Indicates a request to rent a rental unit.
  - ☐ To Sell: Denotes a request to sell a unit (resale).
  - ☐ To Manage: Refers to a request to offer a unit for rent.

### 2. Rent Sub-Menu:

- ☐ Create a sub-menu for "Rent."

### 3. Sub-Menus for Rent:

- ☐ Under the "Rent" sub-menu, add the following sub-menus:
  - ☐ Short Term Rent
  - ☐ Long Term Rent

### 4. Sub-Menu for Resale:

- ☐ Create a sub-menu for "Resale."

### 5. Unit Availability Calendar:

- ☐ Implement a calendar for each unit to display available dates.
- ☐ Block out dates based on the unit's status, marking them as "Approved."

### 6. Dashboard:

- ☐ Develop a dashboard to display the following:
  - ☐ Total rentals, both in terms of units and price.
    - ☐ Short term rentals: Units and total price.
    - ☐ Long term rentals: Units and total price.
  - ☐ Total resale listings, including units and their total price.

### 7. Bookings Submenu:

- ☐ Place all approved units from requests under a submenu named "Bookings."
- ☐ Add filters for columns such as area, date, location, etc.

### 8. Request and Rental Display:

- ☐ Enhance the display of columns within requests, rentals (short and long-term), resale listings, and bookings.
  - ☐ Include columns for status, property name, unit code, and location.

## User

### 1. Search by Calendar:

- ☐ Implement a feature that allows users to search using a calendar.

### 2. Payment Integration:

- ☐ Integrate a payment system to facilitate transactions.

### 3. Short Term Rental Workflow:

- ☐ Create a streamlined process for short-term rentals, including payment handling.
